

Make your Hot Grab & Go Food offerings a self service profit center with our WR Series Two Level Packaged Hot Food Merchandiser !

In a footprint as small as 36", you can increase your offering, create more impulse sales, and grow your hot food program. Based upon hourly and daily traffic patterns, you can utilize infinite temperature control for each individual hot deck to control shrink, maximizing your merchandising impact while continuing to maintain temperature.

This one or two level case is ideal, not just for rotisserie chicken, but for all packaged foods – turn off the heat on any given level to merchandise dry goods. If you are selling hot food full service, you won't believe the profitability of this self service unit due to reduced labor costs, convenience for shoppers, higher sales and lower shrink.

This unit is a **MONEY MAKER** and a **SELL-THROUGH BEAST !**

NEXT GENERATION

~ Features ~

LED LIGHTING ON EACH LEVEL

The industry's most brilliant interior LED lighting on all levels showcases your hot offering, attracting customers like moths to a flame! Benefit from longer life, reduced maintenance costs on burned out bulbs, and energy conservation.

NEW SIMPLER DESIGN

Updated design allows for easier serviceability and attracts customer attention like no other case in the industry.

DIGITAL THERMOSTATS IN LIEU OF INFINITE CONTROLS ON DECK HEAT

More accurate temperature control so that you can sell product at exactly the right set point.

FULL WIDTH TOP HEAT PLATEN

More even heat distribution and temperature across the entire width of the hot shelf.

THIN PROFILE SHELVES

Your product is the focus, not the equipment – and customers can see even more of your fresh prepared food offerings with thin shelves offering the same reliable heat coverage.
